

SAP PROCESS CHAIN DASHBOARD GUIDE

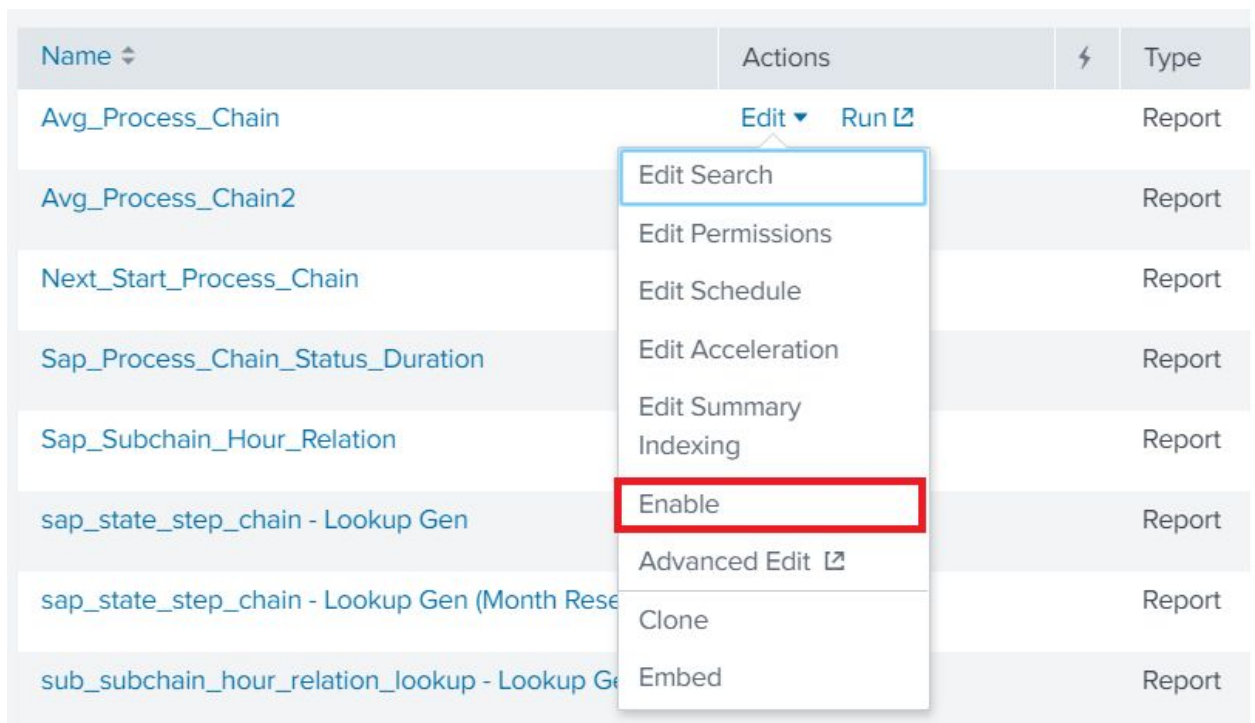

- **SAVEDSEARCHES**

The following saved searches are used to populate the lookups. By default these searches are disabled. Users need to manually enable them

1. Sap_Subchain_Hour_Relation
2. sap_state_step_chain - Lookup Gen
3. sap_state_step_chain - Lookup Gen (Month Reset)
4. Avg_Process_Chain
5. Avg_Process_Chain2
6. Next_Start_Process_Chain
7. Sap_Process_Chain_Status_Duration
8. sub_subchain_hour_relation_lookup - Lookup Gen

The steps to enable the savedsearches are:-

1. On Splunk's menu bar, Click on Settings -> Searches, reports, and alerts.
2. Select SAP Powerconnect for Splunk (BNW-app-powerconnect) in App.
3. Click on "Edit" dropdown under "Actions" and click on "Enable".

Name	Actions	Type
Avg_Process_Chain	Edit ▼ Run ↗	Report
Avg_Process_Chain2		Report
Next_Start_Process_Chain		Report
Sap_Process_Chain_Status_Duration		Report
Sap_Subchain_Hour_Relation		Report
sap_state_step_chain - Lookup Gen	Enable	Report
sap_state_step_chain - Lookup Gen (Month Reset)		Report
sub_subchain_hour_relation_lookup - Lookup Gen		Report

You should be able to visit the new dashboard by going to the following URL:

**http://<your_splunk_instance_address>/en-US/app/BNW-app-powerconnect/process_cha
in_dashboard**

**(Replace the placeholder in the URL)*
