Running the extractor batch jobs

KB007 – Changing the user that the EXTRACTOR batch job is executed
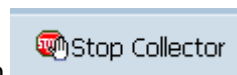

Affected release: All

Condition:

- Customer wishes to change the user that executes the EXTRACTOR batch job
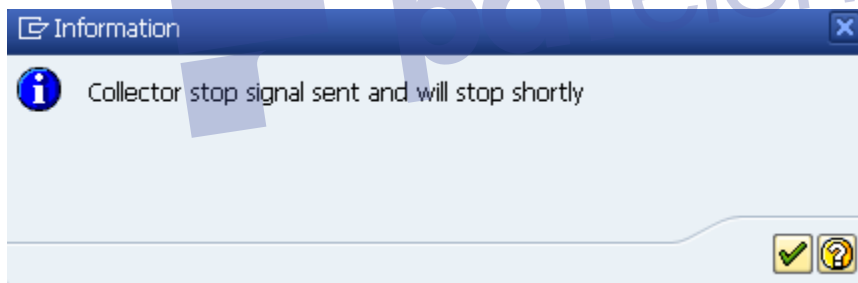

Solution:

Start the PowerConnect control panel /n/BNWVS/MAIN

Stop the Collector using the **Stop Collector** button

Wait a few minutes for the collector to stop, when it stops the status icon will turn from a tick to a cross
Enter the name of the batch user

Restart the EXTRACTOR **✔ Start Collector**

Once the EXTRACTOR is running again

Job Monitoring		
Check Job		**Metric Collection**
Is Check Job Scheduled? ✔		Is Metric Collection Active? ✔

You can check using tcode SM37 to see the user executing the job **/BNWVS/BC_DATA_EXTRACT**

Display Job /BNWVS/BC_DATA_EXTRACT
